Look, Draw, Hide, Imagine, Check

Blank worksheet

a routine, not a test

1 Look

Study the keys and their letters.

2 Draw

Draw the same keys on paper. Letters are optional.

3 Hide

Letters fade: only C stays. Then none.

4 Imagine / point

Picture E. Point to the next key on its right.

5 Reveal / hear / verify

Play it on your instrument and listen.

Imagine as much or as little as you can. Skipping the imagining step is fine; the aim is a clearer ear-to-key map.

Original AMF graphic, rendered from data (no AI-drawn notation). C4 = MIDI 60.
