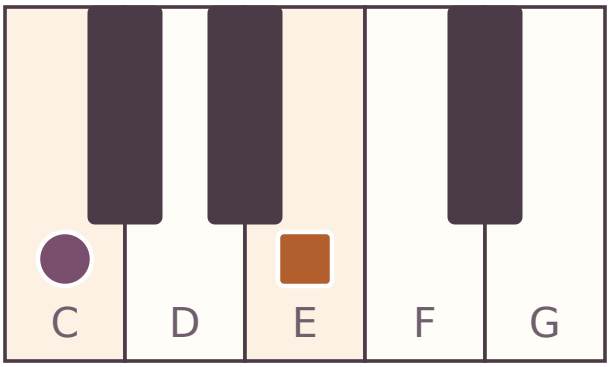
Lesson 2A practice sheet: three little changes

Your name or date (optional): _____

1. Your starting pair

Play **C4** (lower voice) and **E4** (upper voice) together on your own instrument. Use separate tracks if you can. Count the interval: letters C, D, E = 3; semitone moves = 4.



Circle = lower voice. Square = upper voice. Count semitone moves from zero, not from the key you start on.

2. Three single changes. Reset to C4 + E4 before each one.

Change 1: Hold C4. Change E4 to F4.

From **C4 + E4** to **C4 + F4**. Before you play it, hum the new note or point to it on the keys.

Which voice moved? _____ Direction: _____

Moved by how many semitones? _____ Letters (both ends): _____

Semitone moves: _____ Name of the new interval: _____

Change 2: Hold E4. Change C4 to B3.

From **C4 + E4** to **B3 + E4**. Before you play it, hum the new note or point to it on the keys.

Which voice moved? _____ Direction: _____

Moved by how many semitones? _____ Letters (both ends): _____

Semitone moves: _____ Name of the new interval: _____

Change 3: Hold E4. Change C4 to D4.

From **C4 + E4** to **D4 + E4**. Before you play it, hum the new note or point to it on the keys.

Which voice moved? _____ Direction: _____

Moved by how many semitones? _____ Letters (both ends): _____

Semitone moves: _____ Name of the new interval: _____

3. Draw your two lines

Draw how each voice moves through time. Both lines start at their notes. Draw one flat line where a voice holds, and a slanting line where it moves.

Change 1

E4

_____

C4

_____

Change 2

E4

_____

C4

_____

Change 3

E4

_____

C4

_____

The top line is the upper voice and starts on E4. The bottom line is the lower voice and starts on C4. Write the new note name where each line ends.

4. Which would you use in a slow ambient piece?

Change number _____ because _____

There is no correct answer. Nobody scores this sheet. Your ears and taste decide.
