

THREE LENSES ON ONE NOTE

RE (D) over four chord contexts — every system's reading of the same note

RE • D

Stability Rank 5 • "Yearning" • The most context-dependent note in C major

I maj7 — Cmaj7

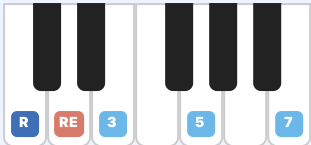

TONIC CONTEXT

AMF Zone 3 — Floating

Unstable note, non-chord tone. RE yearns over the most stable chord.

HARMONY Non-chord tone • 9th (major 2nd above root)
Not a member of Cmaj7 (C–E–G–B).

VOICINGS Available tension • 9th
Can be included in the voicing as color, but not required.

Searching and open — RE adds modern color to an otherwise grounded chord. This is where RE sounds most characteristically yearning.

IV maj7 — Fmaj7

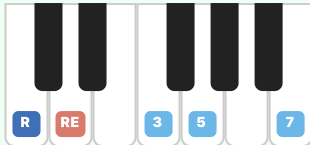

SUBDOMINANT CONTEXT

AMF Zone 3 — Floating

Unstable note, non-chord tone. RE floats above the "departure" chord.

HARMONY Non-chord tone • 6th (13th)
Not in Fmaj7 (F–A–C–E). RE is the 6th above the root.

VOICINGS Available tension • 13th
Available on major7 chords as extended color.

Warm color on a warm chord — RE contributes to the "departure" feeling. Both the chord and the note push gently away from home.

V7 — G7

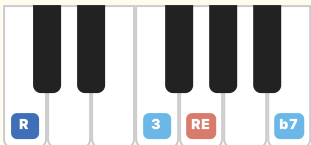

DOMINANT CONTEXT

AMF Zone 1 — Grounded

Unstable note, but caught as a chord tone. RE is supported here.

HARMONY Chord tone • 5th
RE (D) is the 5th of G7 (G–B–D–F). Fully harmonically supported.

VOICINGS Chord tone — 5th
A structural tone of the chord. Can be included, omitted, or doubled.

The one context where RE feels supported — G7 catches it as a chord tone. The yearning quality is neutralized. RE becomes neutral and strong.

vi-7 — Am7

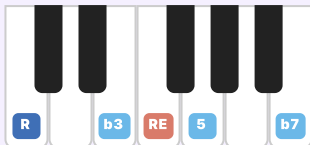

TONIC MINOR CONTEXT

AMF Zone 3 — Floating

Unstable note, non-chord tone. Melancholic float over the relative minor.

HARMONY Non-chord tone • 4th (11th)
Not in Am7 (A–C–E–G). RE is the 4th above the root.

VOICINGS Available tension • 11th
The 11th is available on minor 7th chords (unlike major 7th, where it's an avoid).

Misty and introspective — RE adds melancholic color over the relative minor. Both the chord's minor quality and RE's yearning nature reinforce each other.

RE's stability rank (**Rank 5 — Yearning**) never changes. But whether the chord supports or resists that yearning **changes everything about how it lands emotionally**. G7 catches it. Cmaj7 lets it float. Am7 makes it ache.
